

HUB Zone GSA. SDV. SBA 8(A) CONTRACTS

VERTICAL LIFT MODULES.
COMPACT PALLET RACKS.
WEAPONS CABINETS.
READINESS GEAR CABINETS.
MOBILITY BAG STORAGE.
HORIZONTAL CAROUSELS.

PEACE OF MIND

We design and install all types of solutions on GSA Schedule contracts that maximize the use of building floor space and improve productivity and security for optimum deployment readiness.

VERTICAL LIFT MODULES (VLM)

VLMs use the goods-to-person principle to provide automated storage and retrieval in less space than conventional shelving. Ease of use and enhanced security increases efficiency, productivity, accuracy, and ergonomics with less labor, time, and wasted space.

- Integrated Inventory Management Software
- Picking and Order Fulfillment
- Audit Tracking
- Automated Storage and Retrieval (ASRS)
- Pick-to-Light

VERTICAL CAROUSELS

Vertical carousels are enclosed compact units of rotating trays that deliver requested items directly to the operator at the push of a button. Military facilities can recover up to three quarters of floor space used to store parts, gear, supplies, weapons, and ammo.

- Inventory Control
- Controlled Access
- Ergonomic Work Counter
- Roll-Out Weapon Drawers
- Spare Parts Storage

UNIVERSAL WEAPONS CABINETS

Keep weapons safe and secure from unauthorized access as well as vibration, shock, and abrasion. These heavy-duty cabinets pass the shock and load testing requirements set by the military and provide space-saving storage for all types of weapons, tactical accessories, and ammunition.

- Retractable Door Cabinets
- Modular Weapon Racks
- High Density Storage
- Fully-Equipped Weapon Storage
- Deployment-Ready Cabinets

COMPACT PALLET RACKS

Stationary aisles take up as much as 60% of warehouse floor space. Convert that wasted space into more pallet positions and improve security, organization, and efficiency while providing twice as much storage for gear, supplies, weapons, and equipment.

- Heavy-Duty Pallet Racks
- 100% Accessibility
- Use Existing Racks
- Remote Control From Forklift
- Lateral Compact Storage

READINESS GEAR CABINETS

Store combat and deployment readiness gear efficiently and safely in high security cabinets. These storage cabinets keep war bags combat-ready and able to be located at a moment's notice to ensure your unit is always prepared, secure, and ready to go.

- War Bag Lockers
- Deployment Gear Cabinets
- Gun Lockers
- Gear Shipping Containers
- Armory Storage

MOBILITY READINESS STORAGE

Organize and store mobility bags and essential gear efficiently in one convenient and centralized area. Our mobility solutions provide quick and easy access with a high level of security for combat-ready gear and war bags.

- Mobile Bulk Storage Racks
- Parachute Racks
- Mobility Bag Storage
- Hanging Uniform Storage
- Passive Safety Features

HORIZONTAL CAROUSELS

Horizontal carousels consist of rotating storage bins mounted on an oval track that delivers requested items to the operator to improve efficiency and accuracy. Compared to traditional shelving systems, the horizontal carousels could recover up to 70% of otherwise wasted floor space.

- Bin Shelving Carousels
- Small and Medium Parts Storage
- Supply Warehouse Storage
- FastPic Inventory Management
- Medical Supply and Pharmacy Storage

MODULAR DRAWER CABINETS

Modular drawer cabinets are an ideal solution for small and medium-sized parts and inventory. The modular drawers are available in virtually any size and can be modified and added to easily.

- Tool Room Cabinets
- Mobile Cabinet Carts
- Mini-Racking Cabinets
- Heavy-Duty Drawers
- Ship Deployment Cabinets

ELECTRONIC CAROUSEL STORAGE

Reclaim up to 80% of your floor space and increase productivity up to 56% for your military records storage and filing system. ADA compliant electronic carousels store and secure files, binders, parts, and supplies in a centralized area.

- Secure Record Storage
- Administration Document Management
- Vertical Carousels
- Adjustable Work Counter
- Document Scanning/Management Services
