

Cannabis is one of the fastest-growing industries in the United States. With increasing real estate costs and a high number of regulations, proper and effective storage is more crucial than ever. Finding the right storage solution for your application is a long and difficult process, and we aim to make it as fast and easy as possible for you.

Single-Tier Mobile Grow

Save space, reduce costs, and improve efficiency with high yield indoor vertical growing systems that keep plants flourishing and accessible to employees.

DEA Rated Security Cage

DEA approved wire partition cages store cannabis with a high level of security for distribution centers and pharmaceutical manufacturers.

Dispensary Shelving

High density shelving for cannabis dispensaries maximizes storage capacity and optimizes organization and accessibility of products, accessories, and supplies.

Product Display Shelving

Modular casework provides flexible and durable product display shelving.

Multi-Tier Mobile Grow

High-density mobile grow storage racks are designed to increase indoor vertical growing space by up to 50% in a smaller footprint.

Overhead Drying Rack

Maximize drying space and efficiency with our overhead cannabis racks. It's durable and adjustable design fits any cultivation set-up.

Security Shutters

Protect your cannabis dispensary with security shutters. Enhance safety and privacy while deterring break-ins and ensuring regulatory compliance.

Movable Grow Lighting

Adjustable grow light systems reduce energy and labor costs while increasing productivity, giving you maximum control over your cannabis cultivation.

Trim Tables & Drying Racks

Use food-grade stainless steel and aluminum trim tables, drying racks, prep tables, pan racks, and more for curing, drying, and growing.

Stainless Steel Casework

Modular casework provides flexible and durable workspaces for labs, extraction rooms, testing, and more.
