

Universal Stackers for Hospital Beds, Crib, Wheelchairs, Carts, and More!

The Universal Storage Stacker provides hospitals and rehab centers with a scalable solution for safely storing multiple hospital beds and more. By utilizing vertical space, facilities eliminate corridor storage, free up valuable floor space, and improve compliance with Joint Commission and OSHA guidelines.

Key Features

- Stores up to 2–5 levels vertically (up to 1000 lbs each level)
- Accommodates the majority of hospital bed sizes and weights in one stacker
- Adjustable shelves/levels: 24”–36” spacing to fit multiple bed types adjustable on 2” increments
- Load pattern can be adjusted to the front or side for maximum flexibility
- Seismic-rated anchoring available
- Adjustable wheel stops and loading ramps
- Green/red up/down color coded controls
- Dual floor safety sensors, safety light curtain, and keyed lockout emergency stop
- Built in the USA, engineered for long-term reliability
- Fast installation typically completed in one day per lift
- Unit has the ability to be modified in the field to load from the front or side
- UL certified electronics included
- NEMA L14-20R locking plug included on all 220v options
- Anti-microbial paint finish included

Features	Universal Stacker
Vertical Storage to Store Anything	✓
Automatic Limit Stops	✓
96" x 47" Platform That Holds 1000 lbs	✓
Convertible System (beds, carts, wheelchairs)	✓
Keyed Lockout System	✓
Green/Red Up/Down Color Codeed Controls	✓
Adjustable Platform Distance On 2" Increments Vertically	✓
Adjustable Wheel Stops and Ramps Included	✓
Safety Curtain To Protect User	✓
Dual Floor Safety Sensors with Keyed Lockout Emergency Stop	✓
UL Certified Electronics Included	✓
NEMA L14-20R Locking Plug Included	✓
Stores Beds, Cribs, Wheelchairs, Carts Of All Sizes	✓
One Stacker Does It All	✓

Part Number	Description	Unit Height	Unit Width	Unit Depth	Storage Levels	Clear Height	Clear Width	Clear Length	Weight Capacity
