ADDITIVE WALL

Additive options in Addwall provide flexibility to achieve various design aesthetics. Panel options include flush, split, segmented and clerestory. Finish options include glass, veneer and fabric. Addwall also provides the ability to support worksurfaces, storage and other components. Magnetic accessories can be easily hung on walls eliminating the need to screw or tack to wall.

OFFICE FRONT

A clean, easily reconfigurable office front using full height, frameless glass sliding doors and glass panels for visual connections. Walls between offices with clerestory panels enhance openness. Functionality is provided where needed with hanging, non-hanging and finish options. Wall panels can be easily changed as functional and aesthetic needs evolve.
