

Product Details

The Herbarium Drying Cabinet is a desiccating device for plant material used in botanical research for natural history museums, higher education botany and organic chemistry departments, medical research centers, and pharmaceutical marijuana dispensaries.

The Cabinet extracts moisture from pressed plant samples preserving their structural integrity for study or other processing.

Equipped with a 120 V/1500 W ceramic heater with independent fan, the vented Herbarium Drying Cabinet reaches a maximum internal temperature of 120°F to ensure thorough and rapid drying of specimens.

A door-mounted thermostat controls the cabinet temperature and features an easy to read digital display. Located directly below the thermostat is a separate fan control with 'off' position or variable speeds for even drying. Five vented shelves are adjustable on every 1/2". The cabinet has leveling feet on four corners and a hinged door available in right and left swing.

Product Features

External Dimensions:	30"W x 32"D x 84" H
Internal Clearance:	27-1/2"W x 27-1/2"D x 77"H
Weight:	400 lbs
Colors:	31 Powder Coat Colors, no VOCs

- Vented Drying Cabinet desiccates botanical material
- 120 V/1500 W Ceramic Heater with 1 Year Warranty
 - Adjustable independent fan and heater function
 - 3-Prong 6 Ft power cord plugs into port on unit back
- Digital Thermostat on door for quick temperature monitoring
 - Set point from 80°F to 120°F
 - Integrated alarm to sound if internal temperature reaches 125°F
- Five adjustable vented shelves provide air and heat circulation
- Door mounted fan speed controller

Vented shelves provide air and heat circulation. Adjust every 1/2".

Separate thermostat and fan control on door.

Herbarium Cabinets are second to none in quality, breadth, color selection, and accessories for your collection.

These heavy duty welded Herbarium Cabinets feature a locking compression handle to provide the tightest of seals and a non-offgassing silicone gasket to protect your specimens.

*Powder Coated Cubbies
No Snag, Smooth Interior Finishes*

Standard Pallet Base & Easy Leveling

Double Door Herbarium Cabinets are designed with an elevated pallet base for easy installation. All cabinets feature 4 leveling feet to ensure cabinet is plumb and level.

Stackable Units

Counter Height Herbarium units can be stacked to conserve floor space and have a specially designed panel option to cover the front base if desired.

Eco-Friendly

Our Museum Cabinets are made in the USA. They are eco-friendly with 40% recycled steel content and no VOC finishes to harm your collections or the environment. **Southwest Solutions** is a proud member of the US Green Building Council.

HERBARIUM CABINET FEATURES

Southwest Solutions line of Herbarium Cabinets have unique features that make our cabinets second to none.

Water Shield Top

design included on all cabinets in the event of overhead sprinkler discharge.

Smooth Interior Finishes

The Powder Coated bins are finished smoothly with no exposed hardware or welds to catch folders or samples.

Durable Powder-Coat

Finish has ZERO Off-Gassing making it harmless to collections.

Steel-Reinforced

Full perimeter reinforced lift-off doors will not warp, rattle or flex. No other competitive cabinets have this solid reinforcement.

Hinge Design

Heavy Duty Lift Off Hinges feature large diameter pins to easily seat door to cabinet in the event of door removal. Hinge pivot allows door to swing open flush to side of cabinet.

Accessible Handle

Unlike competitive units with handles sealed within riveted doors, this handle mechanism is readily accessible.

Industry-Unique Compression Handle

standard on all cabinets to effectively compress the silicone door gasket at multiple points.

Work Surface on 84" Cabinets

The Rollout Work Surface slides out to create a quick work surface for your working notes or herbarium folders.

Silicone Gasket

with ZERO Off-Gassing to protect plant collections.

Heavy-Duty Base

Specially reinforced base for solid cabinet integrity. Double door models accept forklifts for installation and moving. Base has easy access to levelers in all 4 corners
