

The warmth of wood, the strength of steel

Wood-Tek can be incorporated with many products including Quik-Lok® Shelving, Mobile™, and Times-2™.

WOOD-TEK

Shelving & Cabinetry

What do you get when you blend the warmth of wood, with the strength of steel? Wood-Tek shelving and cabinetry.

Wood-Tek is a unique blend of wood with steel shelving for unsurpassed strength for heavy media.

Wood-Tek's classic good looks grace the hallways and front areas of business, legal and accounting firms, as well as libraries and schools across the country. Wood-Tek is not only beautiful, but strong enough to support the weight of the heaviest of media.

Wood-Tek provides unsurpassed beauty and a lifetime of value. Wood-Tek offers many advantages when compared to conventional millwork.

- Unlike millwork, Wood-Tek shelves are Quik-Lok: steel shelving that's guaranteed to stay rigid and level.
- Wood-Tek shelves support greater weight than conventional millwork. One 36" x 12" span of shelving holds an excess of 300 pounds.
- Wood-Tek product is versatile and 'portable.' If your business moves, Wood-Tek can move with you to preserve your investment.
- Wood-Tek comes in 2 wood species and 4 elegant stains. When combined with any of the 31 beautiful colors of shelving, Wood-Tek provides infinite design possibilities.

WOOD-TEK

Design Elements

Wood-Tek styles range from contemporary through traditional in Cherry and Maple in four stains. Customize Wood-Tek with your choice of exotic woods or unique stains and finishes. Door fronts of solid wood, glass, mesh or shaker style provide a versatile finishing touch.
