

# VERSATILE, SECURE, MOBILE OR FIXED MEDICAL STORAGE SOLUTIONS

*These storage cabinets are designed around the most innovative modular tray system on the market and feature your choice of door style for security and ease of access.*

## MEDSTOR MAX CABINETS

### WHY CHOOSE MEDSTOR MAX FOR YOUR STORAGE SOLUTIONS?

- Offers up to 30% more tray and basket storage capacity when compared with leading competitors products.
- Adjustable dividers have a unique clip-in design to stay in place when heavily loaded.
- Unique design of side panels, combined with pull-out stoppers, allows trays to be viewed at an angle without falling out of the cart.
- Available in multiple locking options on glass door models – key lock, E-lock & keyless entry with audit trail.

Engineered and  
Manufactured in the U.S.

## MEDICAL STORAGE

SSGMSPM83-00TK (3-WIDE)

SSGMSPM82-00GK (2-WIDE)

*Tambour door models like the one above use a handled door front that rolls directly into the cabinet roof. They are useful for situations where the door needs to remain open all day long, but they are limited to a key lock and cannot incorporate LED lighting.*

### **MedStor Max glass door storage cabinets come with the following standard features:**

- Unmatched quality of construction — built to last using professional-grade design and manufacturing for medical-grade applications
- Largest selection of locking options in the industry including badge entry and WiFi-capable locks
- Improved, better refined aesthetics featuring sleek new door handles and hinged doors
- Stacks flush with walls or other

cabinets — we don't use easily misplaced removable handles or bulky exterior hardware

- Doors can swing open up to 270 degrees, which is great for leaving cabinets open during busy days.
- Features a true 24" interior cabinet depth able to store boxes two feet deep
- Customize your cabinet with any combo of trays, baskets, shelves or accessory packages
- Interior side panels offer multiple insertion points in every column creating

a system of organizational possibilities

- Modular trays can be pulled out at an angle and "clip-on" locking safety features help minimize the risk of trays falling out
- Optional dimming LED lights toggle on/off when the door is open, ideal for use in surgical areas for better procedural vision
- Industry best 5" quiet rolling Tente® casters for superior mobility - 1 steering and 1 braking caster
- Cabinet is delivered fully assembled - **accessories not included**

Catheter slide drawer for use in double column MedStor Max, with five partitions

SSGMS-CATHSINGLEDRAW  
Catheter slide drawer for use in single column MedStor Max, with two partitions

## FIXED SHELVES

Remove your plastic cabinet side panels and replace them with any amount of permanent, fixed shelves.

## SPLIT COLUMN

Double column cabinets can be either two single columns or one double wide column, however a split column cabinet provides the best of both worlds. The SPLITA version has two single columns above with a double wide column below, while the SPLITB is the inverse of that. These configurations are ideal for holding catheters while maximizing storage space.

# MEDICAL STORAGE OPTIONS

## LOUVERED PANELS

This accessory replaces our side panels with louver panels that hold Akro-Mils® or similar style plastic bins. Panels are affixed to the rear and provide up to 180 insertion points. Designed for full size, double width column MedStorMax cabinets.

## SLOPE TOPS

This top cover accessory adds a sloped top to any one, two, three or four column MedStor Max cabinet. Slope top cabinets provide attractive aesthetics and are easier to clean within medical facilities.

**CUSTOM OR UNIQUE PROJECT? NO PROBLEM.  
LET US BUILD THE PERFECT SOLUTION FOR YOU!**

## BASE ALTERNATIVES

MedStor Max cabinets come standard with 5" quiet rolling Tente® casters to keep your storage mobile. But for those that need stationary storage cabinets, we offer two options: a standard height base with legs or a short base for rooms that have lower clearance. Each version includes levelers to help cabinets stay level.

### Stationary Base with Levelers

### Zero Base with Levelers

## Premium Grade Quality

Our medical grade cabinets are proudly **made in the USA** using top manufacturing techniques. We stand by our work with an industry leading 12-year manufacturer's warranty.

1

## Increased 270° Door Swing

Doors can swing up to 270 degrees, great for leaving cabinets open during busy days. Optional magnets help keep open doors flush to the cabinet body.

6

## Limitless Possible Combos

Customize your cabinet with any configuration of trays, baskets, shelves or accessories/packages. Interior side panels within each column create a system of multiple organization possibilities.

2

## Integrated Side Handles

We don't use easily misplaced removable handles or bulky exterior hardware. **MedStor Max handles are built into the cabinet body** so they can stack flush with walls or other cabinets.

7

## Highest Capacity Storage

Our cabinets feature a true 24" interior cabinet depth able to store boxes two feet deep. Offers **30% more tray or basket storage capacity** when compared with leading competitors products, using any 2", 4" and 8" modular trays or 3", 5" and 8" wired baskets.

3

## Your Choice of Lock Type

We have the **largest selection of locking options** in the industry including badge entry and WiFi-capable locks.

8

## Recessed LED Lighting Option

Optional **dimming LED lights** toggle on/off when the door is open, ideal for use in surgical areas for better procedural visions.

4

## Modular Trays that Safely Extend

Trays can be pulled out at an angle, and "clip-on" locking safety features help minimize the risk of falling trays.

9

## Multiple Door Options

Select our **standard glass doors** option or choose a tambour door, solid doors, sliding doors or even no doors at all!

5

## Stainless Steel or Color

All cabinet sizes **available in stainless steel** or choose from over twenty color options.

10
