Delivers an Impressive View...

View Series Glass Wall Systems Provide Elegance at a Competitive Price.

The View Series' unique and functional design offers timeless elegance with its floor-to-ceiling or freestanding glass walls. The sophisticated center pane glass walls and the glass doors of NxtWall's View Series invite natural light into interior spaces promoting daylight harvesting.

The unique flexibility of the View Series can incorporate sliding glass doors for minimal aesthetic interruption or a swing door for added security and privacy. Door hardware options include a wide array of non-locking and locking ladderpulls from 15" to custom full height, as well as leversets to match existing hardware and function.

NxtWall architectural demountable walls deliver a "field-fit" design with minimal waste. Clear tempered, laminated or specialty glass panels with a thickness of 3/8" to 1/2" enables endless creativity and non-intrusive designs. View Series demountable walls support LEED building design and are reconfigurable, reusable, and 100% recyclable.

NxtWall View Series provides a glass wall solution that is scalable and can adjust to the harshest existing building site conditions. Simple elegance and refined visual impact make NxtWall demountable walls an aesthetically superior choice at a competitive price.

Left: Freestanding conference room with frameless glass double sliding doors

Previous Top Left: View Series is ideal for offices and conference rooms

Previous Top Right: Integrates seamlessly with existing architecture

- Top Right:** Soft close/open feature for sliding doors
- Above Left:** Flexible small or large format interchangeable core locksets
- Above Right:** View Series track & guide adapt to existing floor level/height variances

Private glass offices with aluminum framed swing doors

Flexible design layouts without compromising aesthetics

The Five Core Benefits of NxtWall Architectural Wall Systems:

- Flexibility
- Functionality/Performance
- Speed
- Sustainability
- Affordability

FLEXIBILITY

- Ability to accommodate any design layout.
- Integrates with existing construction or even existing wall systems!
- Ease of panel replacement saves time and money on reconfigurations.
- Unlimited wall panel material choices.
- Reversible doors and door frames.

FUNCTIONALITY / PERFORMANCE

- NxtWall wall systems are scalable to fit your budget and building needs.
- Integrates with imperfect building conditions such as non-level floors, curvilinear layouts and out-of plumb building columns.
- Eliminate the risk of incorrect field measurements and panel sizes by using our field fit components.
- We offer space saving sliding doors to maximize your valuable office real estate.

SPEED

- Fastest lead times in the demountable wall industry with a 3-5 week standard lead time.
- Get back to work faster! A single trade can install NxtWall from start to finish, as opposed to the extended schedules that come with standard construction methods.

SUSTAINABILITY

- NxtWall products support LEED building design.
- Up to 100% recyclable, reusable, and reconfigurable- keeps drywall and debris out of our landfills.
- Eco-friendly finishes available.
- Daylight harvesting with use of our glass walls.

AFFORDABILITY

- Options available with lower first-cost pricing compared to standard drywall construction methods.
- Recover up to 35% of your wall project investment in the first year with tax code Section 179.
- Depreciate demountable walls in 7 years vs 39 years for drywall.
