

MULTI-LEVEL SHELVING

Not enough space? Before you embark on an expansion project, consider multi-level shelving, which makes efficient use of vertical space, as well as depth and width. Our specialists will suggest solutions to work around all your building's obstacles: beams, columns, doors, air ducts, building structure, etc.

Multi-level shelving maximizes your storage potential by combining shelving, modular drawers and Mini-Racking, and adapting everything to your inventory. The system allows you to store more parts in less space, while also reducing trips back and forth and therefore wasted time.

Big challenges need big solutions!

EXPERTISE THAT LEAVES NOTHING TO CHANCE

IMPORTANT

Multi-level shelving systems are subject to standards and recommendations in earthquake-prone regions. Project managers are available to help you work out what shelving and sway bracing you need and help complete your multi-level shelving project. Call Rousseau's sales department and ask to speak to one of our project managers..

NOTE: For technical specifications, please refer to technical guide S05 Multi-Level Shelving.

SOLUTIONS

STANDARD SHELVING

MULTI-LEVEL SHELVING

Catwalk mezzanine

High-rise shelving

Deck-over shelving

TRADITIONAL SHELVING

MINI-RACKING (upper level only) over shelving

SHELVING COMBINED WITH MODULAR DRAWERS

UPPER LEVEL

Sturdy long-span or standard shelves for bulky material.

LOWER LEVEL

Shelving with dividers and modular drawers for small or rapid turnover items.

STACK & STORE CABINET MEZZANINE

MORE STORAGE, SAME FLOOR SPACE

Our Stack & Store Cabinet Mezzanine is a turnkey solution and includes: ground-level cabinets, stacked cabinets, floor panels, railing and stairs.

It provides easily accessible high-density storage on two levels.

It is quick and easy to install, and the ground-level cabinets are pre-drilled for easy installation of the railing and floor panels. It can also be moved or reconfigured as needed.
