

# Dispenser Distinctives

- No electricity required so it is truly portable and can be located wherever you need it
- Time and cost savings since it is much more efficient and works better with larger shoes
- Reduces worker's comp injuries
- No need for benches and stools
- Ideal for people who have difficulties putting on shoe covers
- Avoids contaminating hands from touching shoes
- So easy to use that it improves employee compliance
- Looks professional and impresses your customers
- Maintains a sterile environment while meeting health codes
- Easily loaded in bulk – ideal in higher volume applications
- Both the inexpensive (non-woven fabric and plastic) and specialty/durable (Hybrid and Super) shoe covers are easy to install
