Secured Optics Storage

Security. Transportability. Visibility. Readiness. Spacesaver Corporation provides an unparalleled line of solutions to ensure military bases meet security and accountability directives for all high-value assets including night vision devices and optics.

OPTICS AND NIGHT VISION DEVICE STORAGE CABINETS

For simple, bulk storage of high-value assets including optics and night vision devices Spacesaver offers configurable storage cabinets. Perforated steel doors make it easy to visually inspect inventory and inspect units while maintaining security standards.

- Steel cabinets provides long-lasting service
- Available in multiple sizes
- Three lock types available: hasp only, keyed, or combination

Bins & Adjustable Shelving

UNIVERSAL WEAPONS RACK (UWR®)

When security and transportability are critical in the same product solution, Spacesaver's UWR platform delivers. Originally designed for, and in conjunction with, the military, the UWR provides secure storage and durable construction to take the abuse of deployment and in theater use.

- Diamond perforated door and side mesh allow for quick visible inventory without breaching security protocols
- Welded, heavy gauge cabinets designed to take punishing treatment during deployment and while in theater

Heavy Gauge Cabinets

Transportability Handles

SECURE MILITARY LOCKERS WITH CONTROLOC TECHNOLOGY

The ultimate in individualized security and accountability. With ControLoc technology, high-value assets including night vision goggles can be securely stored with electromechanical locks accessibly only by entering a PIN or key card, or a combination of both.

- Full network compatibility
- Self-closing doors
- Multi-point locking system on every door

Touchpad interface with USB interface and protected LCD display

Spacesaver is committed to making sure high-value assets and sensitive equipment, including night vision devices and goggles are securely stored. Each solution is designed to maximize accountability requirements while providing physical and visible inventory capabilities. With Spacesaver, you will have peace of mind knowing that your high-value equipment will be there when it is needed.
