READY

As your military base aims to create a more transformable fighting force, the Spacesaver UWR® storage system remains ready to deliver a single solution for multiple deployment scenarios.

The UWR storage system is designed to securely store a variety of weapons from rifles to side arms, gear bags to optics, all utilizing the same cabinet frame. This ability to store multiple weapons in one system, and do so without the need to disassemble or zero the weapon, is a huge boost to your operational and combat readiness.

The UWR storage system combines thoughtful design and unmatched features to create a system that's flexible, versatile, transportable, and dependable.

Designed to be ready...because you need to be.

» FLEXIBLE

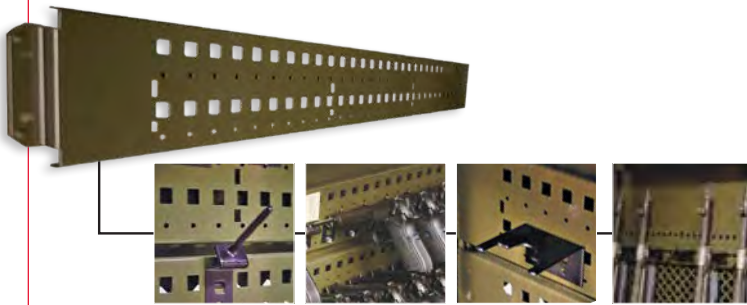

The Spacesaver UWR system maximizes armory storage space within a compact footprint. Adjustable racks accommodate weapons of various lengths and types, and perforated doors and sides simplify weapons inventory assessments while keeping weapons stored and highly secure.

SUPPORT COMPONENTS

Support Rail

Can be positioned and repositioned throughout the cabinet to suspend barrel supports and other accessories.

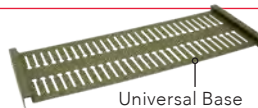

Barrel Supports

Mount on support rail and are dipped in a PVC coating to protect weapons against abrasions in both transport and non-transport applications.

Base and Stock Cups

Universal base mounts inside the cabinet to accommodate adjustable stock cups designed to secure a wide variety of weapons.

Bin Systems

Designed to store a myriad of gear, bin systems can be installed, removed, or modified without any tools or fasteners for fast transformation in reset or theater.

Rigidity

Constructed of heavy-gauge steel and riveted hinges to prevent tampering with doors, the fully welded cabinets secure weapons of varying lengths and types.

Visibility

Perforated doors, sides and rear wall make weapons inventory assessments easy.

Security

Locking bars exceed military requirements for arms ammunitions, and explosives. Meets OPNAVINST 5530.13B and AR 190-11.

» VERSATILE

Adaptable enough to store various combinations of rifles, sidearms and optics, the UWR storage system easily adapts to the changing needs of a transforming military.

Space Efficiency

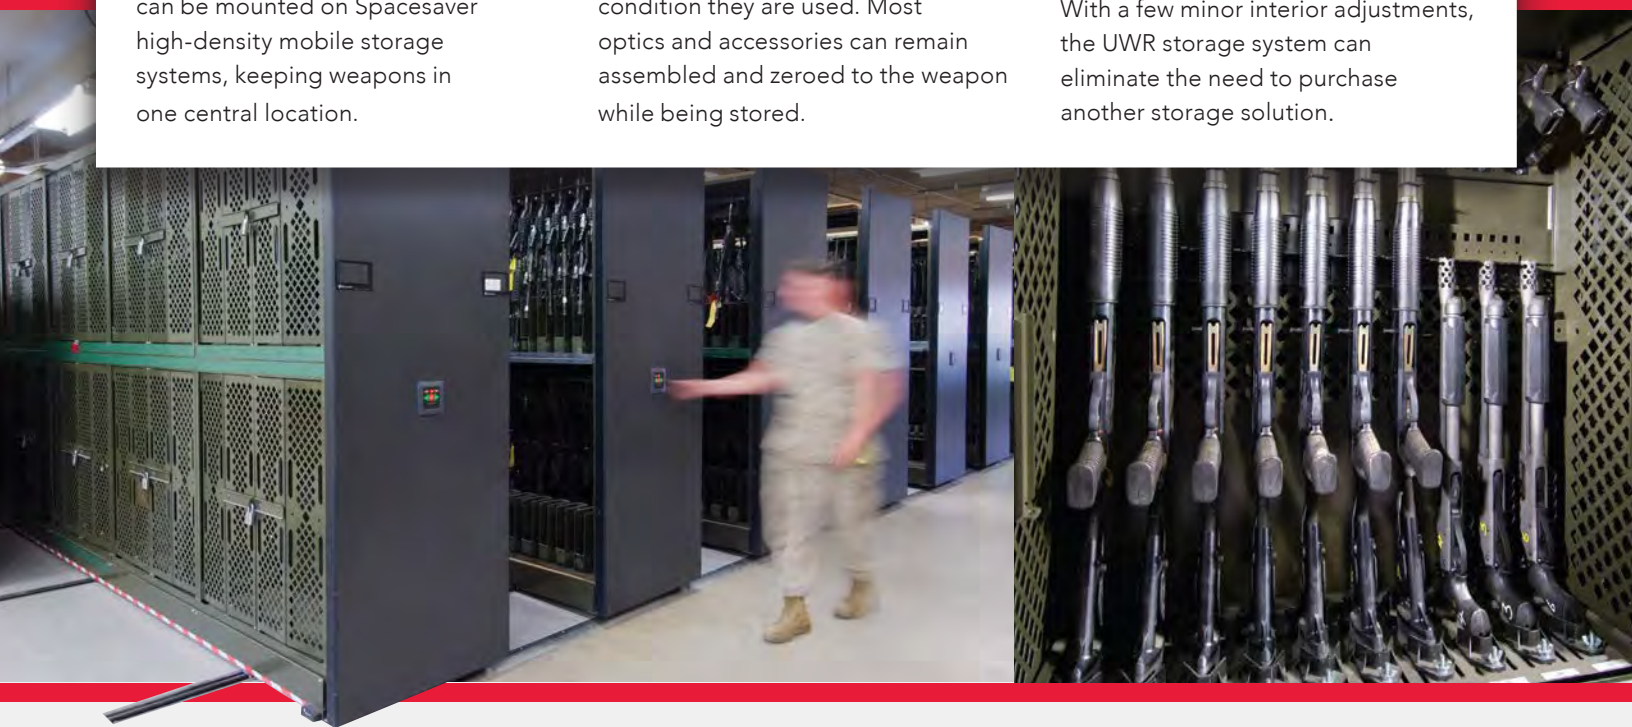

Multiple UWR storage system units can be mounted on Spacesaver high-density mobile storage systems, keeping weapons in one central location.

Convenience

Store and secure weapons in the condition they are used. Most optics and accessories can remain assembled and zeroed to the weapon while being stored.

Quick Reconfigurations

With a few minor interior adjustments, the UWR storage system can eliminate the need to purchase another storage solution.

UWR®

Height	Width	Depth
18"	42"	16"
34"	42"	16"
45"	42"	16"
51"	42"	16"
61"	42"	16"
76"	42"	16"*
84"	42"	16"

The UWR storage system has seven standard heights to choose from that accommodate weapons of varying dimensions and types (including M7 and M250 with the Vortex Smart Optic).

* Also available in 24" depth

UWRmini®

Height	Width	Depth
18"	22"	16"
34"	22"	16"
45"	22"	16"
51"	22"	16"
61"	22"	16"

Offering the same features as the standard UWR storage system, the UWRmini® storage system is just as flexible and versatile. With the same depth, five height options, and slightly over half the width of the standard UWR storage system, the UWRmini makes physical transport much easier than a full-size UWR storage system.

» TRANSPORTABLE

No matter if it is across the armory or deployed to another part of the world, the UWR storage system's accessories allow for secure and easy transport of weapons. Spacesaver's transport components prevent the weapons from movement, vibration, shock, and abrasion. All of our transport components and cabinets passed accidental shock and load tests, keeping weapons safe and secure.

Barrel Supports

The PVC-coated barrel supports provide quick and easy access with a simple lift of the strap.

Handles

Ergonomically placed handles with an integrated 90-degree stop, allow for easy gripping and a comfortable lift.

Cart

UWR storage system transportability cart has industrial grade casters for smooth movement within and around your facility.

Overstorage Cabinets

Typically used for extra storage of items, such as optics, ammo clips and handguns, whether stationary or transportable.

»» DEPENDABLE

Flexible configurations, sturdy and reliable construction, and the fact that it meets all military requirements for performance, security and procurement, make the Spacesaver UWR storage system the premier weapons storage system available today.

Relationships

Spacesaver's long-standing partnership with the military provides our design team with direct access to weapons and optics stored today and into the future. This access is critical for our engineers to design and build solutions that meet the military's changing needs.

Experience

Spacesaver has provided many storage solutions for the military, ranging from weapons storage to record-keeping, and more. Our nationwide network of expert consultants and certified installers have been serving those who serve by providing dependable storage solutions for decades.

Trust

Our UWR storage system and its components carry their own NSN numbers and are available through IDIQ and GSA contracts. Backed by a limited lifetime warranty and numerous government certifications, our solutions have a reputation for providing innovative design, quality workmanship, and efficient and responsible installation for their users.
