

BOTANY MUSEUM CABINET MODEL 240

PRODUCT OVERVIEW

Ideal for herbariums, the Viking Model 240 cabinet provides 8.9 cubic feet of storage space and features a convenient, counter-high design that can be stacked safely — or, if not stacked, provides a useful extra work surface.

This carefully crafted, high-quality cabinet includes 12 storage compartments separated and strengthened by a beaded center divider. Its unique design provides extra space in front and back of the compartments to allow free circulation of air and fumigants.

Shown with optional lever handle.

BOTANY MUSEUM CABINET MODEL 241

PRODUCT OVERVIEW

The popular, full-height Model 241 cabinet provides 19.3 cubic feet of storage space and includes 26 storage compartments separated by a rigid center divider.

Ideal for herbarium specimen storage and preservation, the Model 241 offers exceptional construction and a carefully crafted, unique design that provides extra space in front and back of the compartments to allow free circulation of air and fumigants. You'll also enjoy the valuable extra working space provided by the convenient pullout workshelf on the Model 241.

BOTANY MUSEUM CABINET MODEL 242

PRODUCT OVERVIEW

Perfect in a herbarium, the full-height, double-door Viking Model 242 cabinet provides 38.7 cubic feet of storage space and includes 52 storage compartments separated and strengthened by beaded dividers.

Its carefully crafted, unique design provides extra space in front and back of the compartments to allow free circulation of air and fumigants. Ideal for use on mobile storage systems or in areas with limited space, the Model 242 is 4-1/4" narrower than two side-by-side Model 241 cabinets, yet it provides the same amount of storage at a more economical price. You'll also enjoy the extra working surface provided by the Model 242's two convenient pullout workshelves.
