

Mobile Field Blood Collection Cart

Streamline Mobile Blood Collection and Protect Alyx Machines with our specialized carts.

Safe Transportation for Alyx Machines

- 16-gauge single-piece steel body provides solid housing to withstand the rigors of field transportation
- Welded Aluminum Lid to protect Alyx machine during transport
- The top can be removed and hung on the back handle of the cart, creating a worksurface for ancillary items

Organization of Supplies

- Five durable drawers of various sizes for storage of needles, tubing, and collection containers
- Interlock/anti-tip drawer slides prevent multiple open drawers

Efficiency in Blood Collection

- A built-in worktop with stainless steel handles
- Durable, easy-to-clean HDPE surface
- Rubber-encased bumpers
- Precision swivel casters

Customization

- 23 solid, standard colors available in powder coat
- Add locks to drawers for extra security and safety

Warranty

- One-year materials guarantee that your cart is free of defects.
- 90-day labor and service warranty to guarantee carts are free of defects and ensure a high standard of workmanship and materials used.
- Labor and service for warranty purposes are available in all 50 states.
