

Fire Hose Storage Solutions

Developed, Tested and Used by Firefighters

Simplicity in design make the Southwest Solutions Group Fire Hose Racks a cost-effective storage solution for any hose storage application. Store twice as many hoses in less floor space with a rack that is built to last.

Organize any size of hose (1 3/4", 2 1/2", 3", 4", 5", 6") for instant hose selection.

Fire Hose Racks are 18" deep by 76 1/4" tall and are available in four widths (30", 36", 42", and 48").

The top canopy shelf acts as a dust shield and can be used for storage as well. Solid steel hose shelves are easily adjustable on 1 1/2" increments.
